

## Cyber Security—Risky Business

December 17, 2020

1:00—2:00 pm

Webinar

Cyber security vulnerabilities pose a real and growing risk to healthcare organizations. The expanded use of networked technology and electronic exchange of health information increases exposure to potential cyber security threats.

The presenter will provide an overview of our cyber threat landscape and identify practical steps for leaders to take in defending systems and networks against the most significant cyber threats impacting patient safety and care delivery.

### Objectives:

- Identify the top cyber security threats facing healthcare organizations today.
- Discuss mitigation strategies for leaders to protect against cyber risks and liabilities.

Who Should Attend: IT, CEO's, CFO's, Risk Managers, and other Management Personnel

Presenter: Ginny Adams, RN, BSN, MPH, CPHRM, Sr. Risk Specialist, Coverys
